

We braved the chance of rain and took the ride to Bandera on January 29<sup>th</sup>. The weather was cool but not cold and the rain failed to show its ugly head. When we got to Bandera, to our surprise we found that Busbee's BBQ was closed for employee vacations. But, never fear, a group of hungry bikers will find a place to eat. :) We strolled across the street to the Bandera Saloon and Grill. Food was found and some of the best chili I have had in a while was consumed. I had great time with some really great company. Frank "Comeback" Deyo

I want to say a big "THANK YOU" to all those members who cast ballots and participated in the survey during the chapter Social. Your input was valuable to us and we will work to implement many of the suggestions we were given. Also from time to time I may send out a survey to get a feel for things like how are the rides meeting expectations, our activity level, etc.

Reminder: Today we will be changing the password to the "Member's Only" portion of the website as well removing those members that have not renewed their chapter membership from the email updates. You can renew your member with Maria Robles, 210-860-7233, any Primary officer and at the dealership with Laura back at the reception desk. If you drop it off after today, give us a couple of days to acquire and process the paperwork. We get you back on the list ASAP.

Effective today (Feb 1<sup>st</sup>) we will begin using the new chapter officer emails and discontinuing the use of the Gmail accounts. The new email addresses are the ones listed on the Chapter website under Officers. So this is the last email I will send from this account.
