

So many bikes!

It was a cold overcast day, typical January riding weather, as we gathered for the ride to Floresville. We started the sign in with 10. Then more showed to make it 14, then 20, holy cow, another for a grand total of 21. Yes, 21 well insulated riders! So many we had to split it into 2 groups. Good thing we always have a few spare road captains just in case. A quick ride to the Maverick Grill where we enjoyed delicious food, especially the cheeseburger that took 3 trips just to bring it out!

We took the scenic route back where the combination of sprinkles, cold the closeness of some of y'all's homes reduced our impressive 21 down to 11. No matter, fun was had by all and the Squirrel (hey, that's me) go his last sweep training in. Just an eval ride to go before road captain status.

We'd like to pass on a special message to Yankee... we missed you today, which was a Sunday by the way.

What we did last week:

A successful ride to Floresville, lead by Ana, with 21 bikes and 30 members and guest enjoying a Maverick Grill meal.
