

I've been getting some interesting reports from the Texas HOG Rally. Very interesting reports indeed that I'm sure will be conversation starters at this week's social.

What we did last week:

The Texas HOG Rally is now complete. We had several from our chapter attend. Our rally goers were Frank and Lorraine, Gary "Kick It" and Kerry, Smiley, Paul E, Daila M, Thomas B, Greg "Chach", Carlos, Frank "Soul Sucker" and Lynda "Fetch em". A grand time was had by all. Friday was filled with Greg's magical bike repairs and lots of missed exits and mystery entrances for food and spirits. I'm glad the hail storm didn't get any of the bikes. Saturday had our folks walking holes in boots that were meant to ride not walk in but I hear the manicures and skin pampering made it all better. Makes me wonder what went on in the pool afterward and if the food from the "Love Shack" had anything to do with it? These are the stories we're going to hear about (or never hear about) for some time to come. Good times!
