

## **HUGE THANK YOU!**

Y'all came through big time and we can't thank you enough.

### **What we did last week:**

We began the weekend with a breakfast ride but not to where we had planned. Unexpected construction and a parade in Bandera changed our location to El Chaparral. We had 19 bikes and 21 riders so off we went in two groups. I'm jealous. I was sweep for the first group. The second group got a police escort. Not fair. After the ride, we resumed the original route back with Alayah as training lead. She did great, only forgetting the group just that one time.

If you don't know what we did on Sunday than you haven't been paying attention. This calientegram would be pages long thanking everyone involved so let me just say this, "THANK YOU!" We had so many volunteers that every part of the event just went smoothly. Special thank you to our activities officers for coordinating all this and to our cooks who endured the heat all day long. Ana "Fireball" is still counting but it looks like we made over \$2,000 for our chapter. Many more thanks you's to come I'm sure.
