

## Caliente Gram 5 April 2015

### A NOTE FROM THE ASSISTANT DIRECTOR

At the Chapter Social on Saturday, I spoke of a new product one can use to attach/wrap certain areas of your exhaust pipe to save selected inner parts of your right leg. The manufacturers site is: <https://www.designengineering.com//category/catalog/design-engineering-inc/exhaust-wraps-accessories/titanium-pipe-shield>

I haven't used it and this is not a product endorsement but looks to be a promising item. If you are getting burn marks on your pipes from your boots or more importantly, you are getting burns on the inside of your legs due to your pants being heated to just this side of the sun, this might be worth a try. For less than \$50, it looks to be reasonably priced.

Stay safe and keep it on two (or three) wheels!!
