Rider Improvement Program

Next RIP will be held 18 June 2015 at 700pm - weather permitting. It will be at the old K-Mart parking lot between Marbach and Hwy 90 adjacent to the southbound lanes (outside) of I-410. Remember, this is the perfect time to hone those riding skills. You just never know when they will come in handy. Better prepared than sorry!

Safety and other Tidbits

We are still feeling/seeing the effects of the recent rains. We took a little ride to Alamo Springs Café and there was a LOT of gravel and other debris still on the roads from all the flooding. Also we encountered several spots where there was still water flowing over the rode (6 inches in some places). Take it slow and keep an ever vigilante eye open for the unexpected.

Remember your T-C-L-O-C-S

Tires - Check the pressure of your tires every time. Staying cooped up so long and the fluctuation of weather plays havoc on your tires.

Controls - Check your levers, pedals, cables and hoses to make sure they are all still lubricated and adjusted properly.

Lights - Check your battery to make sure all is well, and inspect your lenses for debris, cracks, and are securely mounted. Test your tail lights to ensure they are working

Oil and other fluids - Check your levels and quality of fluids and ensure nothing is leaking

Stands - Make sure your kick stands are not cracked or bent.
