ODDS and ENDS

Typical of Texas the day started just a bit nippy but quickly warmed up by the time we arrived at the museum. A quick safety briefing and then five bikes and one trike transporting nine riders departure 10:00 am sharp. If there is a back road, Towne Besel will find it and guided all one hundred and fifty-seven miles round trip for good food at Lost Maples Café and good old fashion socializing. After lunch it was off to the museum in Utopia, Tx to take in some of the local history. Though the building is small, it contained items donated by family member of the early settlers. For a small operation there is a lot to see and it is evident that the locals are very proud of their town. The group arrived back at the dealership by 3:30 pm safety and sound. But it wouldn't be a ride for Jack if there wasn't a tire issue to cap of the day. This time it was only two miles from the house and Kathy Williams of LOH performed the necessary repair. Her charges for roadside assistance is very realizable. So if you need help, just call her. Good job Kathy!
