

CALIENTE HOG #2013

Calientegram - 04April2020

There is not too much to report this week. The International Female Ride Day has been delayed until August. I know quite a few of our members, myself included, are still having to work to provide different services as allowed by the city to be open. Please everyone whether you are out during the day, working from home and those that have unfortunately lost or are not able to work, please remain safe. Keep your family and those close to you safe during this time and keep everyone in your prayers. As things change, we will keep you updated. Diane
